**Subject:** [EXTERNAL] Colorado Election Rules  
**Date:** Friday, August 6, 2021 10:35:03 AM

---

It is quite obvious from the amount of energy that Sec State Grizwald is putting into changing election rules that there is something to hide in Colorado's election process. There are numerous analyses that are supporting that at least 5 major population counties need to have a full forensic audit similar to what is going on in Phoenix.

The proposed rules are not needed, but a full forensic audit is. The legislature of Colorado needs to do their constitutional duty and stop this unconstitutional behavior by the Secretary of State.

The use of Dominion machines in the elections has been proven to be corrupt in many counties across the United States. Cease their use immediately and return elections into the hands of the people not politicians.

Thank you,

Jeff Anderson
