Dear Secretary of State,

Thank you for hosting the Elections Rulemaking hearing on August 3, 2021. I am writing to express my concern over the integrity of Colorado's election system. To be very brief, I agree with the many Colorado residents who spoke at this hearing expressing extreme doubt over the "gold standard" of Colorado's system due to the use of Dominion Systems software which has been proven to be accessible through the internet during elections. I agree with many others that a forensic audit, by a non-biased THIRD part MUST be done of the Colorado 2020 presidential election. Following such an audit, then all residents of Colorado can be confident that the system is as good as you claim, and each resident can believe that their vote truly counted.

Sincerely,  
Carla Perez
