Dear jena griswald

1. We had a webinar and you did t have time to join us and you sent us your seragates which didnt listen to us with full attention. One eas called out for playing candy crush, and the other not paying attention.
2. We eant it easier not harder to clean r voter rolls up and get the dead voters off and illegals. According to r constitution ONLY americans, and alive people can vote.
3. We want a audit so we can see if Colorado has the gold standard in voting which you have ststed we have. But i guess thats wrong....
4. We don't want a gag order on poll watchers and workers. That is against r freedom of speech.
5. We also want signatures checked for authentication. So we dont end up with dead or illegals vote.
6. We want are county clerks to keep controlling voting and not send it to denver which we all in Colorado know is full of sewer rats.
7. Can you answer why 24 of are counties have 100 to 103 return when there isnt that many people in that county?
8. Why are you not letting the doninion machines being looked at? Can you explain the picture attached of state representative with a representative from dominion.

Several representatives from the Colorado Secretary of State's office were invited to the event back in 2018.

Sorry the sun made this picture so dark. Check out Hilary Rudy with the SOS office, Mesa County Clerk Sheila Reiner, Boulder County Clerk Hillary Hall and Arapahoe County Clerk Matt Crane.

Dominion executive Eric Coomer hosted the Democrat officials and activists.

Where else can Ms. Morrell be found meandering around with Democrat election-related individuals and Dominion employees?

9. Why does your office have a turn over rate over 200 percent?
