Subject: [EXTERNAL] Written Comments - Elections rules - 08/03/2021 hearing
Date: Tuesday, August 10, 2021 3:32:17 PM

To whom it may concern:

I agree with the petition. Cleaning up inactive voter registrations should be done by the county clerks in their county. Well-trained bipartisan citizen canvas boards should serve as voting fraud detectors. The SoS proposed rules 2.13.2 and 10.1-10.3 should be opposed and NOT adopted as law, rule, or anything else.

The SoS has no legal right to be making laws. The right to make laws is what our Colorado legislators do under the authority of the people of the state of Colorado. Not the SoS.

We need to have our 2020 election results tested and verified. We should be able to ask for elections to be verified and have it done. The state of Colorado is long overdue to have the election certified. We have asked for the election to be verified, through something other than the SoS, it should have already been done.

We should require voter ID for anyone who wants to vote.

Mail in voting should be rare and able to be verified.

Illegal aliens (or whatever they are called, possibly "undocumented immigrant") should not be registered to vote nor be voting in our elections.

Dead people should not be voting.

People who have moved out of the state should not be voting.

People who have not registered prior to a deadline prior to voting day should not be voting.

Computers, especially those by Dominion and other voting software and hardware, should not be used for voting.

Let's go back to hand counting.

Thank you.
Edith Kreimeyer
